How to create a Sandpit?

TechSprint Admins · https://nayaone.com/lou0lh9x2qkjngmo3lq4nz09dxorxnzcz51dpqp8/hackathon-admins-en/how-to-create-a-sandpit/

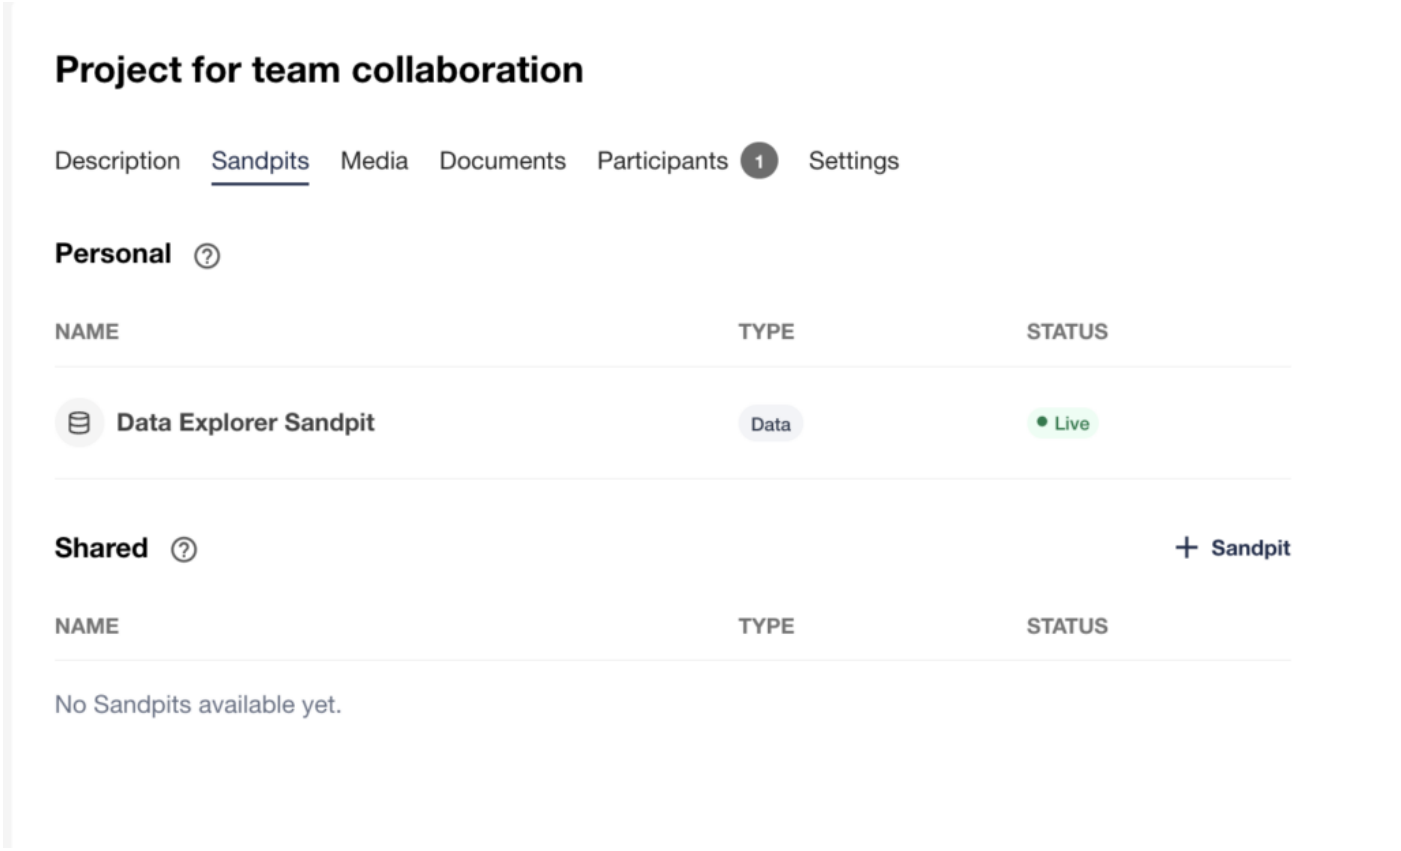

You can create a sandpit for your new event. To add the sandpit in created event, open Event Settings page.

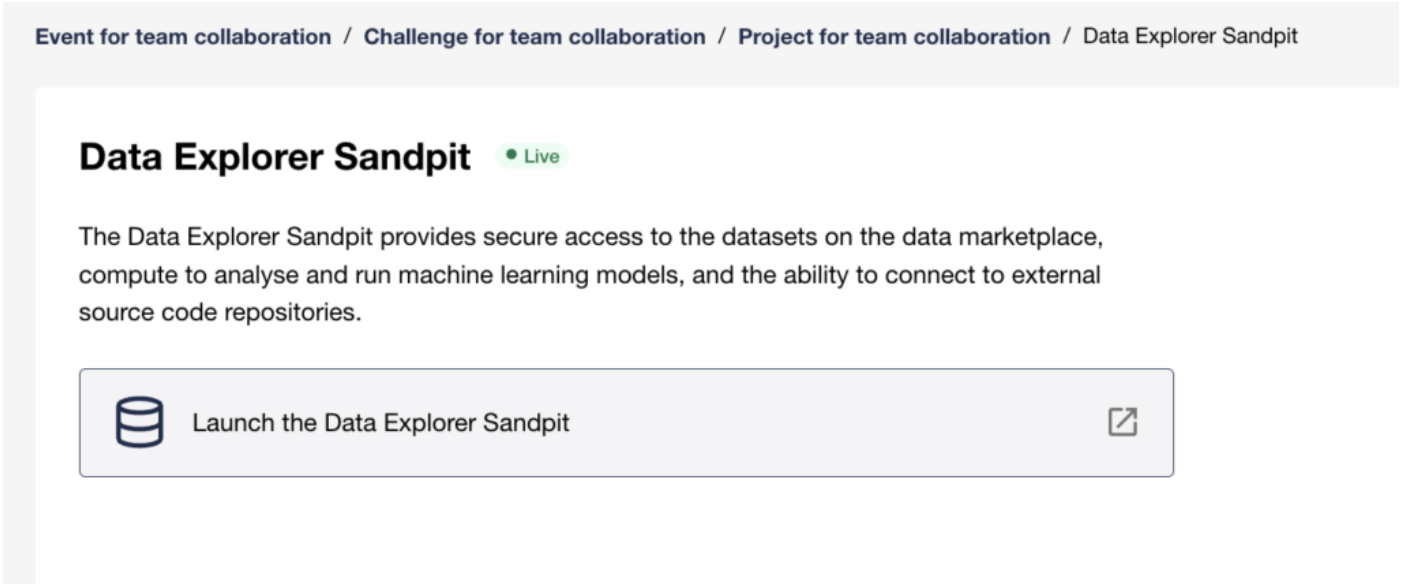

Click on the “Enable” button for sandpits that you want to use.

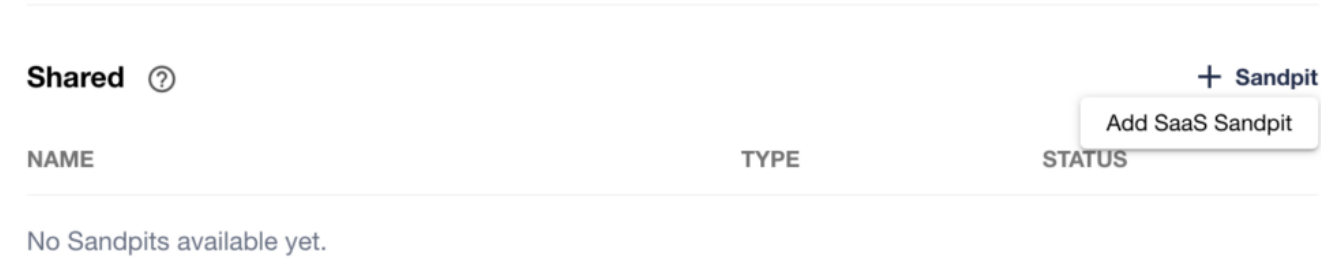

Open the created project within your event and go to the “Sandpits” tab to launch sandpits

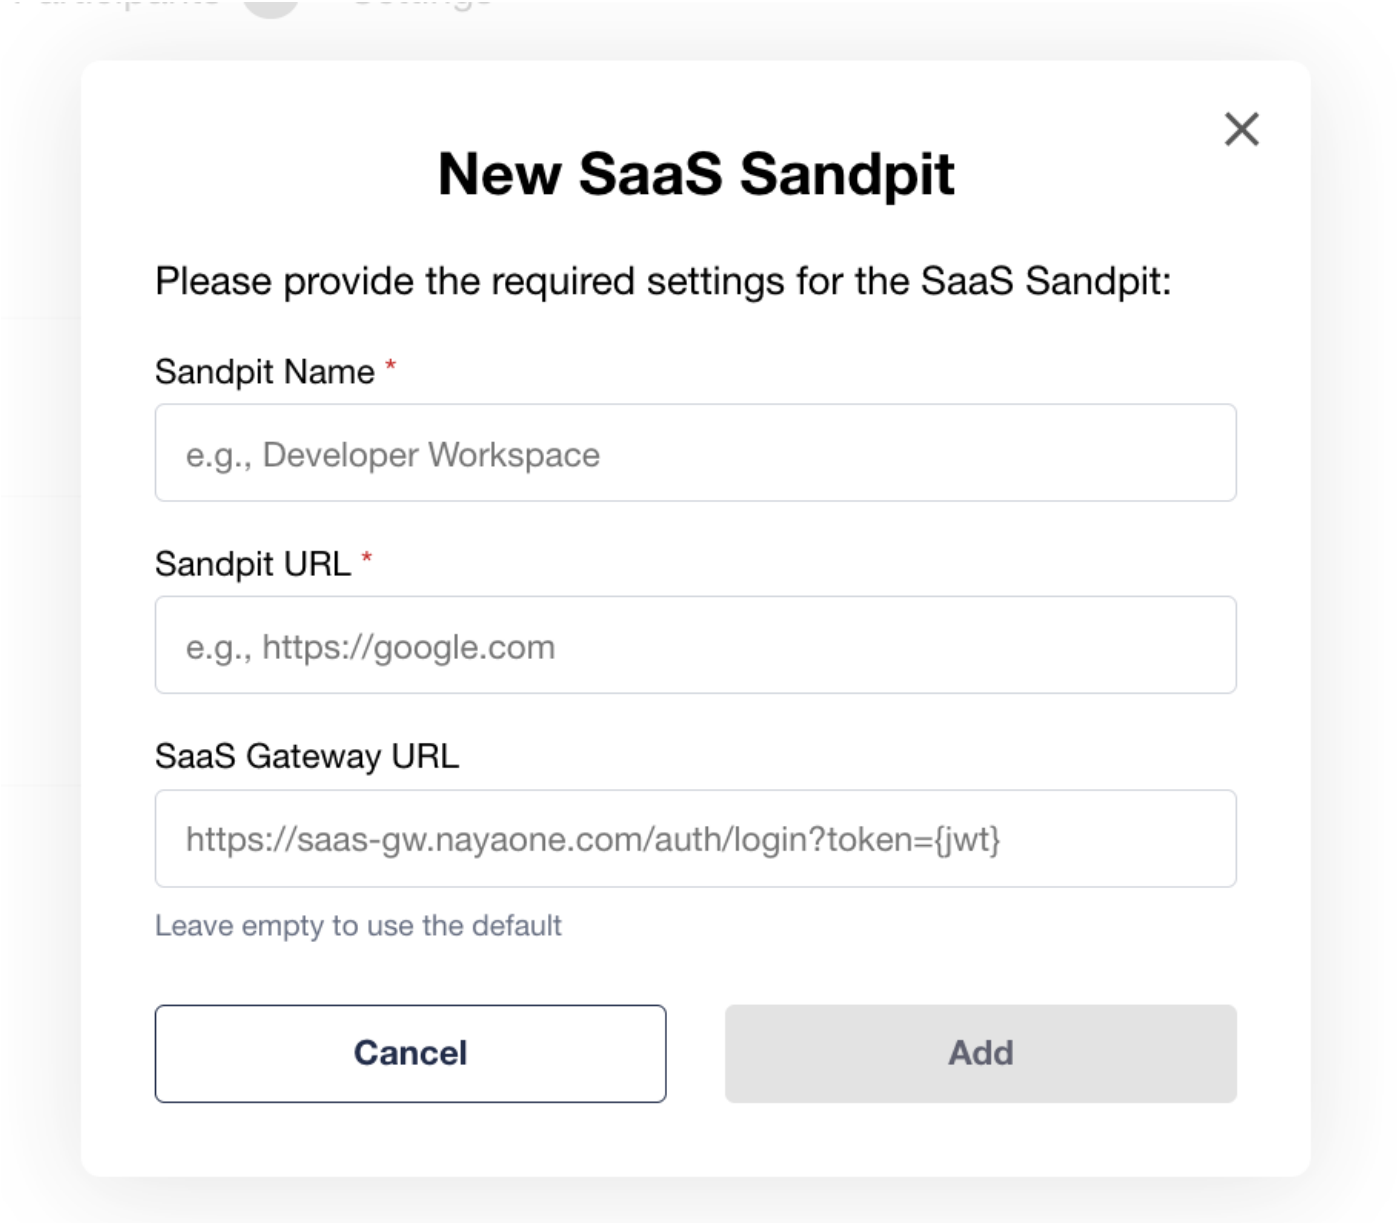

The Data sandpit goes live immediately after creation. Click the Data Explorer Sandpit to view details and launch it.

To create a SaaS sandpit, click on the “Add Sandpit” button on the “Sandpits” page

Fill in the required data inside the fields and click on the “Add' button

Click the created SaaS sandpit to view its details and launch it.
