Exploring AI with NayaOne

Use Case Library · https://nayaone.com/lou0lh9x2qkjngmo3lq4nz09dxorxnzcz51dpqp8/use-cases-library-en/exploring-ai/

Learn how to create an AI project and develop, review, and evaluate models using the NayaOne platform.

This video shows you how to

1. Explore the Fintech Marketplace
2. Develop models with Jupyter Notebooks
3. Calculate AI bias and fairness
4. Create a standard machine learning model
5. Create a Generative AI model
6. Explore software experimentation options
7. Host models on AWS cloud
